year. You are a swell fellow and a good
student.

your friend,

Termy loops

We have taken pictures and more pictures; we have written articles and rewritten articles in an endeavor to make this volume of the LEXICON the very best ever, and to help you relive the year 1950-1951.

This year has held memories both happy and sad, of sports, of friends, and of teachers. In this annual for 1951, we have struggled to preserve for you these memories and to help you in future years to remember this year at your "Alma Mater."

The staff would like to extend its deepest appreciation to Mr. Wike, who was so co-operative and helpful when pictures were being made. We also thank Mr. H. Lee Waters who did the photography and helped in a great way to make this annual possible.

This annual will recall memories to the LEXICON staff of mad scrambles to meet our deadlines, worry about securing advertisements, and trying to fill the snap pages. So after nine months of hard work, we present to you the 1951 LEXICON in the hope that it will afford you and others a few brief glimpses of life as it is lived in our beloved school.

lots of luck to a
real cute guy.

GRATITUDE

As our Senior year comes to a close

And graduation is near.

We all look back to days of yore,

To a school we hold most dear.

Not long ago we were hurrying time;

We were eager to depart

But now, when the time is near at hand,

We look back with a heavy heart.

Soon we'll leave these familiar halls,

This life we'll leave behind;

But we'll go forth into a life of our own

With a clear and open mind.

In years to come as we reminisce,

And we think again of today,

Let's lift our hearts and give thanks to God

For leading us this way.

LAURA KEPLEY.

SENIOR CLASS HISTORY

In September 1946 the present Senior Class entered Lexington High School for the first time. We were a group of excited eager students on that first day at high school. There was a feeling of uncertainty and some of us were even scared. This was an entirely new experience for all of us, and we did not know exactly what to expect. First of all there were six periods a day, making some changing classes and not corners. During this first year we were to see a part of the high school although we were not officially considered high school students. We then at our first pep meeting and football game will join in our roommates. Also there was the exciting grade basketball tournament and more. As school came to a close we were looking forward to the next year when we would be freshmen and real high school students.

Feeling proud of the fact that we were now qualified high school students we began our freshman year at Lexington High School. As our first class officers we chose Janet Brown president, Carlton Everett vice-president, Chuck Nock secretary, and Jessie Christ treasurer. Right away many of our boys and girls began to take part in the activities of the school. Some of them joined the FFA, Lawn Care, Home and Glee Club, others played football and basketball. Feeling that we had completed a very successful year we said our friends and school good-by for vacation time.

The summer months flew by quickly and once again we came back to high school. We really did not realize how that we were sophomores. As our very capable officers we elected Carlton Everett president, Berntha Blanton vice-president, Pat Linkers secretary, and Lois Ann Marney treasurer. Again our class was outstanding in all ways, and some of them became members of the varsity teams. Many of the girls were invited by being asked to serve at the Junior-Senior Banquet. Two of our girls became cheerleaders. The members of our class in the Junior-Senior Banquet were the first Junior-Senior Banquet which proved to be quite a success. Looking forward with high hopes and ambitions for our junior year, we left Lexington High School for the summer of 1949.

As juniors and upper-classmen we had an even greater responsibility and part of the school. Realizing that we were the very best officers we again elected Carlton Everett president, along with Burke Goss vice-president, Lois Ann Marney secretary, and Corky King treasurer. Many found their hopes and ambitions turned into reality when they became members of the Literary Club and journalistic staffs. The football and basketball teams were made up largely of members of our class who proved their worth by helping to win many victories. The election of our class ring was a very awarded event, and we felt important when we received them. To make money for the Junior-Senior Banquet we had charge of the concession stand at the football games and also sold Christmas cards and wrapping paper. Under the guidance and direction of our sponsors, Mr. Theodore Lemaire and Mrs. Fred R. Lewis we presented the Junior Class play, "A Youth, Man's Enemy," which proved to be quite a success. On May 1, 1950, we gave the Senior Class the best Junior-Senior Banquet ever given at Lexington High School. Of course this was our own opinion. We felt proud of the two boys and seven girls who served as chairman at the Commencement exercises and also of those chosen as delegates to boys and girls state. When school closed on May 31, 1950, we felt that our junior year had been well spent.

The summer passed very pleasantly and quickly with various students enjoying various vacations. The time dreamed of by us became a reality and when by the city students frequented it daily and almost hourly. Before we could realize it September 6, 1950 had rolled around on the calendar and we entered Lexington High School for our last year. We had long awaited the time when we would be considered as "Dignified Students" and enjoy school privileges. However, we did not feel too differently from the other years. Our Senior Class officers were Corky King president, Burke Goss vice-president, Barbara Young secretary, and Maxine Yathorough treasurer. We were proud of the victories of the football team and their winning the 1950 Darts Bow. More and more of our class became members of the various clubs of the school. We can truthfully say that there was never a dull moment during our senior year. There were contributions, ball games, dances, class meetings, big themes, etc. There were many other activities which kept us busy most of our spare time. Perhaps the most memorable occasion was the wonderful Junior-Senior Banquet given by the seniors of 1951 and to them we are deeply indebted for a memory we shall treasure always. We are grateful to Mrs. Otis Heerick, our adviser, and our other teachers for their patience and understanding during our senior year as well as all other years of our school career.

And now we realize that our high school days are almost finished and soon we shall leave Lexington High School for the last time. Our joys and sorrows, victories and defeats, joys and griefs are becoming part of our lives have been closely woven together. But as in Omar Khayyam's *The Rubaiyat*,

"The Moving Finger writes; and, having writ,
Moves on: nor all your Piety nor Wit
Shall lure it back to cancel half a Line
Nor all your Tears wash out a Word of it."

So forgetting regrets and remembering the joys, we, still with a feeling of unity, will go our individual ways to face the future.

RUTH COX,
Class Historian.

SENIOR CLASS PROPHECY

"On I see need to correct this? How did we ever get alone without space ships in relation to Mars look in 90? What was I doing at that early age? Oh yes now I remember. I was a student at Lexington High School. We really were some good kids at that time. I H.S. I never had been a class to equal the class of 1901. I can only wish I could go back and see what's happened to all my classmates. I think I'll ask Don Parker if he'd like to go with me. He owns this swanky Martine hotel where he's putting in a vacation. He really knows his way around the interplanetary highway from Earth to Mars. He has a license of it to be taken on this planet.

"Freak," how would you like to visit some of the people in our graduating class? You say you don't remember ever graduating from anything? Freak, how can you forget dear old I.H.S. so quickly? You do remember that you will be going to the academy where we'll be going into your astronautic studies with him. My space ship is now being built and service it'll be ready to take us out there. They have better mechanics on Mars than anywhere else in the universe.

"Freak" look over there. Isn't that Alan Bailey? I wonder what he can be doing on Mars. You say he owns the biggest space ship garage in the universe? The same one that fixed my ship? Well, live and learn! He started out as an apprentice mechanic and worked his way up. He's such a good mechanic that people come from all over the universe to have him fix their ships. But time's a'wastin'. Let's go.

"Freak," don't you just love traveling by space ship, especially when the roads are as good as this one? What does that sign on the side of the road say? "This Road Suggested by Highway Council. Worker's Foremost Civil Engineer." He very knew that he received the Nobel prize for the work that he did on this road. It's not one of the many scientifically impossible roads that Johnny has discovered. People told him he was crazy for even thinking of making such a road but he stuck to his motto. Where there's a will there's a way. He can truly show them that nothing is impossible.

Goodness, I didn't realize that we were home. I don't believe I'll ever get used to the speed of space travel. There's Washington, D. C. "Freak." You've been away so long I suppose you don't even know who the President of the United States is now? Well it's that Jones and that classmate of mine. I don't think of anything more to the job than he is. He receives the largest majority of votes of any president since Carter. Washington. Every one in the country votes for him except for people it's strange. But the people were not sure for him at the time of the now almost extinct Communist Party.

Doesn't Washington look wonderful with its new buildings? Herbert Sink was the architect who drew up the plans. It's considered by most architects in the universe and has state of architecture has copied it and it modeled colonial and modern type. Herbert has been commissioned to draw up the plans for all the major buildings in houses not only in the United States but also in the other planets. A house or a building however big or existing it can boast that it was designed by Herbert Sink.

Over there is the new FBI building that Sink designed. By the way, do you know that Norma Kepner is now the head of the FBI? Jean Edgar Hoover was getting too old to do the job efficiently so Norma was appointed because of the success she had in tracking down men in high school. So far, not a man has slipped through her fingers.

Look, "Freak," there's Senator Don Hege entering the Capitol Building. Since Hege was elected to the Senate, wonderful things have taken place in the government. He has captured the attention in this country and has made it better for millions of people. He is so beloved by the people that there has been talk of asking him to run for president. I don't know if it is whether or not he would run but he doesn't wish advancement for himself but only wants what is best for the people of this country.

As we travel onward, I see the law firm of Leonard and Dixon. Johnny Dixon is president of this firm and Wend Leonard is vice president. They handle all the court cases in which the government is involved. Wend has become known as the most eloquent speaker in the law profession while Johnny has been known to charm the members of the jury with his cuteness. Their two very capable secretaries are none other than Johnnie Mae Walters and Carolyn Myers. These girls have instituted a new filing system which they are thinking of patenting. We've heard that this system will make all other filing systems obsolete.

As we move into the suburbs of Washington, "Freak" calls my attention to a cute little white house with a picket fence around it. This is the home of "Cootie" White, the first football coach to be paid a million dollars. There's his wife, the former "Joanie" Greene, helping him to perfect a new play. Oh, oh, she waved to us and missed the ball. Will "Cootie" be mad? We'd better get away from here, "Freak." Anyway, the game between the Washington Redskins "Cootie's team" and the New York Yankees is about to begin. We certainly don't want to miss that game because Nookie McGrady is the Redskins' star player. He has caught our hearts and we've been following him out of a jersey this year. After football season is over he will grow his contract to play professional basketball with the Milwaukee Bucks. Richard "Skin" Smith is now manager of his team since his retirement from the football world several years ago. "Skin" made all American the last two years that he played for the Boston Braves the pitcher Nookie travels with the Boston Red Sox but never as a spectator. Fred's responsibility has broken all baseball records since he started playing.

essional. He has doubled ~~Ben~~ Ruth's home run record and has set new records which will probably never be equalled. No wonder they call him "Mr. Baseball!"

What's that, "Freak"? So you want to go to New York! Well, no sooner said than done. Here we are! Who would you like to visit first? Why, yes, I'd like to see Tommy Lopy too. He owns the *New York Times* now, doesn't he? Well, here we are in Tommy's office. Let's ask his secretary, Lois Ann Marley if he's at it yet? Well, that's too bad, but I'm glad we had a chance to see you, Lois Ann. What - that? You're engaged to a man who owns a chain of drive-in's across the country? My goodness, some girls have all the luck!

Well, "Freak," we really should leave, but while we're in New York, let's just look around. Maybe we'll see someone else we know.

Doesn't Dr. Victor Kirkman have his office on Fifth Avenue? He's a psychiatrist, isn't he? I've heard that he and ~~the nurse~~ Betty Clark have a long wonderful work bringing delinquent mothers back their sanity. Just the other day Mrs. Vandertub, the former Betty Storer, went to him and he cured her almost instantly. She said those twins of her were enough to drive anyone to distraction.

I certainly would like to buy a new dress while I'm in New York. Nancy Clark has some awfully new creations that have been advertised throughout the universe. I don't think women's clothes would interest you too much, "Freak," so just make yourself comfortable here and I'll be out in a jiffy. Were that dress take long, dear? Nancy knew that I was coming (she studies mental telepathy) so she put out just the dress that she knew I'd like to see. Her quick service and foresight have helped to make her the success that she is today.

Since I bought a dress, I think it's only fair that we let you buy a pair of Foxes. "Freak," let's go ask Glenn Smith. He makes overalls that huge. He does? Why, how silly of me to forget. He made his first million making Levi's for midgets and giants, didn't he? Of course, some of the credit must go to his secretary, Norma "Battercup" Smith. It was her idea, and Glenn furnished the capital. Together they have built up a unique industry.

Freak, we have to go. Hurry and put on your Levi's. Ready at last? Good. Glenn told me that Bobby Koonts, Bernie Scott, A. Lee Hennes and Billy Kay have started a new car race and track hospital. Bobby is in charge of all the race patients, Hennes the car patients, A. Lee the nose patients and Billy the throat patients. This hospital has become very famous. People come from all over the universe to be treated by these famous doctors. Four of their very capable nurses are Evelyn Blackburn, Anne Maccham, Sue Thompson and Evelyn Punkin. I heard Evelyn specializes in treating injured football players, and Anne caters to sailors. Sue and "Punkin" aren't particular, they just like to treat sick people. I've heard that Wilis Phiggins owns and operates a grocery store that's just about the best from here. Let's go talk to him and perhaps he can tell us something about some of our former classmates. Why, there's Wilis now talking to Mrs. Maxine Russell Yates. It seems that he can't keep enough baby food in stock to feed her counterparts, so she wants to know where to go to buy some more. Wilis tells her to go to Ketchum's Super Market of which Hennes Freyter is the owner. Hennes has a playground in his store where mothers may let their children play while they shop. This feature particularly appeals to Maxine since she has two rambunctious boys. Confound me, I think Wilis has just lost a customer by telling Maxine about the playground!!!

"Freak," who's that running beside the frozen food counter? Why, it's Teeny Bolwin. Teeny, why are you buying all that frozen food? What's that? You're giving a dinner party tonight for Nancy "Huge" Swing and her fianquet who've just come up from New Orleans? They just returned from Europe just month, didn't they? Hennes says it seems as if they're always going somewhere. I understand the purpose of their trip was to furnish their new country estate. Is that no hint to let husband's money? Did settle for just a house? By the way, how are your three boys and Tim? Oh, four boys now? They been away too long? I've heard that you've introduced a new way to translate French that makes it as easy to learn as English. You should have introduced it when we needed it most! Namely, back at dear ole' L.H.S.

How are Andy and Charles getting along? They have the football team they always wanted, don't they? Eleven boys? I imagine she really has her hands full. Charze is quite a successful actor now, isn't he? Hasn't he been invited to be the principal speaker at the World Conference of Doctors to be held in Vienna?

What did you say, "Freak"? You think that we should go somewhere you want to go instead of where I want to go? Ah, that you name it. You want it to be a surprise? Well, leave it your own way. What are those guys in that suit doing walking around on that platform? Oh, now I get it! "Freak," what are they doing? We're at Atlantic City watching the Miss America contest! We're just in time to see Larry Morris, the noted motion picture producer, crown Miss Mary Lou Sherry Miss America. Mary Lou has starred in quite a few of Larry's pictures, but the one that really made her a star was *How Good Did We Do*. My Eyes the Morning After the Night Before. Larry had a small part in this production. He carried Bromo's to Mary all during the picture!

Here are Tommy Gregg, Burke Giles, and Joe Bafford who seem to be enjoying the contest. All three of them are in the Navy, but they're doing different types of work. Tommy is the Navy's chief test pilot. Just the other day he tested the new W X Y Z-3 plane which made the trip from Earth to Mars in just two hours. Burke is supreme Naval Commander in the Pacific and has been instrumental in bringing back the Hula dance to the Hawaiian Islands. Joe is the commandant of Annapolis and under his guidance the academy turns out the best trained Naval officers in the world.

"Freak," who is that suspicious looking character lurking against the side of that building, staring in a hawkish look and all? Why, it's Corky Kutz. He says that he's been in the Check and Jigger Service for so long that he's beginning to shrink against corners even when he's not on duty. He came to the contest to test, relax, and look at figures that are non-mathematical! Corky tells us that Ruth Young is in charge of training all space ship

hostess for Frate's Universal Speeches. Before space ships were invented she was an airplane hostess and held the world's record for the number of flights made by a hostess. Max Clifford and Benny Yatchewsky own this space line which is the world's largest. Max married a wealthy debutante and decided to fund a space line. He took Benny into partnership with him, and they were fortunate enough to secure Albert Yarnier to survey the land upon which they were thinking of building their space line. Albert had a very heavy schedule, for he was surveying the land where the new United Nations buildings will be built, but since Benny and Max were old customers he dropped in one week in order to survey their land for them. After the land was duly surveyed they captured him. Here are the famous scientists who specialize in drawing up plans for air and space lines to design the most powerful space line building in the universe. The result was the biggest and the best space line that has yet been built. Max and Benny have so much correspondence that they have two secretaries each. Max's secretaries are Frances Kimbrell who takes care of all outgoing mail and Mary Helen Morgan, who takes care of all incoming mail. Benny's secretaries are Maxine Yatchewsky who is his receptionist and Norma Potts who types all personal records of the space line. Doris Mills is the switchboard operator, but she is kept so busy that Max says they are hiring three more girls next week.

What's that, "Freak"? Yes, we do need some entertainment. Let's hop in the spaceship and fly back to New York. I've been told that the feed and the feed show at Leon and Eddy's is wonderful. I wish you could go, Curky, but I understand about your having to stay on the job.

Well, here we are. This is the correct address, but this sign says Henry and Don's instead of Leon and Eddy's. I wonder who's going on around here? There's Don Yates, maybe he can tell us. You mean to say Don that you and Henry Rogers caught this sign and changed it? My goodness, I just can't keep up with this changing pace! Don, where's Henry? That big tall man over there sorta resembles him, but I know it can't be Henry for he's just a little fellow. What? Don, that just can't be Henry Rogers! You say you gave him Yate's Yellow Vitamins for Yittle Yerka, and he became that big almost overnight!? Honestly, I just can't believe it. Let's sit down before I faint. Oh, gosh, the feed show is just beginning. Do you ever forget to go to see Pecky Thompson, Marian Rowe, Billie Fritts, Peggy Bailey, and Marie Everhart in the kick-line? Don says that all of them are stenographers during the day, but at night they work at Henry and Don's, not because they need the money (all of them have large allowances) but just as a pleasant diversion. Marian also does solo singing numbers. They live in the penthouses atop the Wyand Astoria, that is, at the top of Marie. She's married to a little country boy.

Charles Swirgoun is head basketball coach at C.C.N.Y. school. He's turned out a winning team every year that has been there. Of course, the fact that he has McArthur, Wayne Crowe, Ed is quite a factor. Wayne is the most outstanding player in the nation. Nevertheless, Charles can be depended upon to produce a winning team. I believe they are a girls' basketball team has been started at C.C.N.Y. of which Ruth Russell is the coach. She, too, can be counted on to produce a winning team. Her teams work so well together that it is impossible to tell which player is the best. Consequently, the girls' All American team consists of the varsity players of Ruth's team. You'll have to hand it to Ruth and Charles. Both of them are good coaches.

Henry, and Don, I've certainly enjoyed talking with you and I'd like to stay to see your next attraction, but "Freak" has a hanker for some country air, so goodbye Don and Henry, and, . . .

Hello, Jean Hall. Since you are one of the world's best artists, "Freak" wants to know if you'll draw a pin-up girl for him. You want to call your model? Well, I'm sure that will suit "Freak" just fine! Here she comes now. Well, it's none other than Rachel Fritts. Rachel, I know that you were one of the top photographers in the country, but I don't know what you pose for artists as well. Jean's lucky to get as close a model as you are, and there's certainly no one who could paint a better picture of you than Jean. She's tops! You're doing what you always wanted to do, aren't you, Jean? You always wanted to live in the country and raise registered colts and race horses, and now you're doing just that. Isn't Frank Koonts a private doctor to your horses and dogs? I don't blame you for getting into the job. I'm the best veterinarian in this hemisphere. Also, your animals are so valuable that they need a private doctor. With all your many activities you must have tons of mail to answer. How do you find time to do all that you do? What's that? Barbara Young is your secretary, and she handles all your correspondence? That must lighten your burden considerably.

Aren't your nearest neighbors Mr. and Mrs. Jack Burkhardt (the former Rachel Kepley) and their twin boys? Their little boys are the triplets of Rachel except for their mother. Barbara McCoy built one of her country estates about a mile from your home, didn't she? You say it's a thirty room house, and she has a servant for every room? That silver mine in which she has some stock must be one of the richest that has yet been discovered.

Well, Jean, we must be going. I don't know how I'll ever tear "Freak" away from this picture of Rachel; he seems to be in a trance. . . .

"Freak," snap out of it!! We're back in New York and in front of Patsy Leonard's Beauty Salon. She caters to only the elite society you know, and her styling is renowned throughout the universe. She personally chose her two beauticians from among seven hundred applicants because work around Patsy's salon is the goal of every beauty woman. The two beauticians that she has to help her are Penny Sanchez, Barbara Harper, and Frances Everhart. You can usually hear lots of gossip in a beauty shop, so let's go in and see if anyone knows anything about any of our former classmates. Penny Sanchez is giving Patsy Wootton a haircut. It seems as if they're styling something real pretty. Lou White is counting the ruins of an ancient Egyptian city in the Sahara Desert. Betty Lou is an archaeologist you know, and right now she's on an expedition for the Museum of Ancient History. Betty Lou is one of the foremost translators of hieroglyphics and she is also an authority on ancient Egyptian customs.

Barbara Harper is cutting Doris Everhart's hair and she's telling Doris how Ruth Cox and Bessie Lea Surratt

The Quill and Scroll is an international organization which recognizes and awards students of journalism. Membership in the club is composed of members of the two publications in Lexington High School, the *LEXICON* and *Lexhiper*, and other students excelling in journalism. Since the Y.M.C.A. in Lexington has become a realization, the Hi-Y and Tri-Hi-Y have become more closely related to the Y.M. and Y.W.C.A. The members of both school clubs have been conducting meetings together at the 'Y' this year, and these have been greatly enjoyed by all members at Lexington. They have been most beneficial.
